

# HARMONIX Tuning Bases

## *RF-909 Z Million*

"RF-909Z is designed to be used for speaker systems with spikes and audio racks. Of course, It can also be used for other electronic devices such as CD players, DA converters and Amplifiers. RF-909Z can be adjusted in height for the first time with a spike base, and it can be installed to matching perfectly of the equipment so that it is a very convenient design. Furthermore, when used in combination with TU-333EX (Tuning Insulator), it has a synergistic effect. RF-909Z Million is also suggested to be used with REI-168 (Tuning spike) for speaker without spike and other equipment is highly recommended.

### **Improvement effect of RF-909Z:**

- 1) Increases the transparency of all bands
  - 2) Smooth extension of high frequencies
  - 3) Increased amount of information and organic delicacy
  - 4) Graininess of sound and consonants become clear and beautiful chords
  - 5) Realism increases and the sound becomes three-dimensional
  - 6) Amount of information increases, the sound becomes delicate and organic
- Design philosophy: Arrangement of resonance transformation
